

**Audrey Scott, Honor Administrator, Great Britain,
1983**

Personal Website - (None known)

Audrey Scott was a nurse, with a passion for long distance swimming but would not claim to be a swimmer. Channel swimming became her life. Nothing was too much trouble for she and her IMSHOF Honoree husband Ray Scott who ran the Channel Swimming Association for 33 years. Audrey served initially as Assistant Secretary and in the early 1970s took over as Honorary Secretary until her death in 1993. Such was her commitment and admiration for those who took on the English Channel that Audrey tried to see every swimmer start and finish, although logistics did not always make that possible. In the swim season she served the worldwide membership 24 hours a day, 7 days a week, with a willing heart and never a word of complaint. In 1975 Ray and Audrey Scott were presented the Irving Davids / Captain Roger W. Wheeler Memorial Award for their contributions to the administration of open water swimming.
