

**Dr. Tim Johnson, DPS, PE, Honor Administrator,
United States of America, 2006**

Personal Website (None known)

Dr. Tim Johnson, DPS, PE made major contributions for the support elements in marathon swimming, including the development of unprecedented computer applications that modeled swims allowing analysis of currents and tides. He was one of the founders of the Manhattan Island Swimming Association and was the organization's historian. His advice on current and tides set the standards and were partly responsible for the record swims around Manhattan Island. Tim has authored the comprehensive and informative History of Open Water Marathon Swimming.
